## Paul Holland & Linda Yates

### Owners, Tah.Mah.Lah.

Paul and Linda aimed to build the greenest custom home in its class, to demonstrate what is possible and inspire others to follow suit. They have created an outstanding home and cultural model. <http://www.tahmahlah.com>

# Design

## Robert C. Glazier, AIA

### Design Director, HKS Hill Glazier Studio

Bob has more than 28 years of hospitality design experience, specializing in luxury destination resorts, mixed4use urban hotels, and custom homes. His work has achieved global recognition for its unique response to both local architectural traditions and natural site features. He has completed hundreds of projects throughout the U.S., Central America, Asia, Europe and the Middle East for some of the world's leading hotel developers and operators, including Four Seasons, Ritz Carlton, Montage, Rosewood, St. Regis and more. Three of Bob's projects have been awarded the Urban Land Institute Award of Excellence. [hksinc.com](http://hksinc.com)

Robert Glazier [rglazier@hksinc.com](mailto:rglazier@hksinc.com)

## David DaPonte, LEED AP, BD+C

### Associate, HKS Hill Glazier Studio

David Daponte has more than 14 years of experience in all phases of architecture. He has worked on a broad range of projects; his primary focus is hospitality design. David's creative, innovative solutions respond to his client's space needs and functional requirements, working closely with the project team and client throughout the design process and assisting with programming, space planning, specifications, design development, construction documents, installation, and construction administration. David is a key Studio sustainability advocate, advising on HKS projects pursuing LEED certification, and conducting workshops for colleagues preparing for the LEED NC examination. [hksinc.com](http://hksinc.com)

David DaPonte [ddaponte@hksinc.com](mailto:ddaponte@hksinc.com)

**Michael Booth** Founding  
Principal, BAMO

Michael Booth is a Founding Principal of the award4winning interior design firm BAMO. Sharing his time between luxury residential and hospitality commissions, Michael's work has been featured in *Architectural Digest*, *House & Garden*, *New York Times Sunday Magazine*, *Metropolitan Home*, *Western Interiors*, and *Elite Traveler*. In 2011, BAMO was recognized as the Gold Key Designer of the Year. [www.bamo.com](http://www.bamo.com)

Michael Booth [mbooth@bamo.com](mailto:mbooth@bamo.com)

**Rhonda Lay**  
Senior Designer, BAMO

Rhonda Lay is a Senior Designer with BAMO. With a keen aesthetic eye and deep knowledge of furnishings, Rhonda's commissions include residences in California and Hong Kong and as well as the luxurious Villa Feltrinelli in Italy and Taj Mahal Palace Mumbai. Her work has been featured in *Architectural Digest*, *Town and Country*, *Interior Design*, *Hospitality Design*, and *Hip Hotels*.

[www.bamo.com](http://www.bamo.com)

Rhonda Lay [rlay@bamo.com](mailto:rlay@bamo.com)

**Dina Marinelli**  
Senior Designer, BAMO

Dina Marinelli, LEED AP, is a Senior Designer with BAMO. With over 12 years of industry experience and an ardent interest in sustainable design, Dina implements green design elements whenever feasible. Dina designed the interiors of The Willow School, the first LEED certified private school in the country. Recent BAMO projects include Mandarin Oriental San Francisco and Rosewood Sand Hill. [www.bamo.com](http://www.bamo.com)

Dina Marinelli [dmarinelli@bamo.com](mailto:dmarinelli@bamo.com)

**BAMO** has garnered international acclaim by providing sophisticated interior design services for over 20 years. Commissions include private homes throughout California, New York, and Hong Kong, as well as 54star hotels including The Peninsula Chicago and the Villa Feltrinelli. BAMO's work ranges from contemporary to traditional, but the threads that bind them all are quality, comfort and delight. [www.bamo.com](http://www.bamo.com)

### Design AVenues

LEED for Homes and green home design / construction consulting. [annedminster.com](http://annedminster.com)

Ann V. Edminster, Owner [ann@annedminster.com](mailto:ann@annedminster.com)

Hal Bohner [hbohner@earthlink.net](mailto:hbohner@earthlink.net)

Karen Chan [Karen.Chan@hmcarchitects.com](mailto:Karen.Chan@hmcarchitects.com)

Mary Pat Dempsey [office@designavenues.com](mailto:office@designavenues.com)

Jenny Levinson [jennylevinson@gmail.com](mailto:jennylevinson@gmail.com) Erin

Scholl [erinescholl@gmail.com](mailto:erinescholl@gmail.com)

Camden Steele [camdensteele.cs@gmail.com](mailto:camdensteele.cs@gmail.com)

Piper Kujac [piper.kujac@gmail.com](mailto:piper.kujac@gmail.com)

**Integral Group** is an interactive global network of mechanical, electrical, plumbing and energy engineers, specializing in the design of simple, elegant, cost-effective systems for high performance buildings. Collaborating under a single deep green engineering umbrella, with a staff of 250, located in ten offices across the United States, Canada, London, and Philippines, Integral Group design approach differs dramatically from traditional MEP engineering firms as they focus exclusively on highly energy efficient and sustainable design projects. An innovative leader in building system design, they were the first US MEP firm to achieve 7 LEED Platinum buildings, designed the **first certified net zero energy project, world's highest scoring LEED CI, and the highest scoring LEED NC project in North America**. Integral Group's integrated approach to building systems design enhances opportunities that nature provides, working in harmony with a building's environment to reduce its reliance on outside energy sources.

[www.integralgroup.com](http://www.integralgroup.com)

### J. David Maino, P.E., LEED AP Associate, Integral Group

David's knowledge of the LEED rating system and other rating systems, such as the Coalition for High Performance Schools (CHPS) and the Savings by Design program enhances his ability to deliver highly energy efficient electrical design through reduced lighting, equipment and receptacle loads. Dave graduated with Masters and Bachelors degrees in Architectural Engineering and, as a result, is well versed in coordination issues between the disciplines. This enhanced coordination has been exceedingly important when designing sustainable buildings and working with an integrated team. [www.integralgroup.com](http://www.integralgroup.com)

David Maino [dmaino@ideasi.com](mailto:dmaino@ideasi.com)

### Thomas Klope, ASLA Principal, Thomas Klope Associates, Inc.

Established in 1994, located in Los Altos, Thomas Klope Associates, Inc. provides a full complement of professional landscape architectural services and are proud to be project landscape architect for Tah4Mah4Lah. [www.klope.com](http://www.klope.com)

Tom Klope [tom@klope.com](mailto:tom@klope.com)

## Green Gurus

**Ann V. Edminster M.Arch. LEED AP Owner,  
Design AVEnues**

Ann V Edminster is a recognized national expert on green home design and construction. In 2009 Ann wrote an award4winning book about net4zero energy homes, *Energy Free: Homes for a Small Planet*. She is a principal author of the LEED for Homes Rating System and consults with builders, homeowners, developers, supply chain clients, design firms, utilities, investors, and public agencies. She also sits on the advisory boards of several private companies.

[annedminster.com](http://annedminster.com)

Ann V. Edminster [ann@annedminster.com](mailto:ann@annedminster.com)

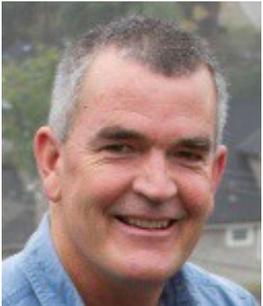

**David Kaneda, P.E., AIA, LEED AP  
Principal, Integral Group**

Over the past two decades, David has designed high performance and resource efficient electrical systems, resulting in cutting4edge, sustainable projects attaining net zero energy, zero carbon emissions, and LEED Platinum certification. David serves as an advisor to a number of key organizations focused on sustainability issues including: the GSA National Register of Peer Professionals, California Building Standards Com4mission 4 Green Building Code, CPUC Zero Net Energy Ac4tion Plan, and DOE/ CEC PIER High Performance Building Façade Research Program.

[www.integralgroup.com](http://www.integralgroup.com)

David Kaneda [dkaneda@ideasi.com](mailto:dkaneda@ideasi.com)

**Bruce King  
Founder, Ecological Building Network**

Bruce King is a registered engineer with 35 years of worldwide experience in structural engineering and construction. He is the founder of the Ecological Building Network, and the author of *Buildings of Earth and Straw*, *Making Better Concrete*, *Design of Straw Bale Buildings*, international earthen building standards, and dozens of papers and articles for conferences and journals. He speaks to professional groups and universities all over the world, and raises chickens and children.

[www.ecobuildnetwork.org](http://www.ecobuildnetwork.org)

BruceKing [bruce@ecobuildnetwork.org](mailto:bruce@ecobuildnetwork.org)

**Bill Reed, AIA, LEED  
Principal, Integrative Design Collaborative; Regenesi**

An internationally recognized practitioner, lecturer, and author in sustainability and regeneration, Bill works to lift green building and community planning into full integration and evolution with living systems. He is an early passive solar architect and one of the founders of the LEED program; a leading authority on integrative systems design as well as whole and living systems thinking; a board member or advisor for a number of ecologically based companies; and consults on large4scale community planning and social development projects around the world.

[www.regenesisgroup.com](http://www.regenesisgroup.com)

Bill Reed [reed@integrativedesign.net](http://reed@integrativedesign.net)

**Peter Rumsey, P.E., FASHRAE**  
**Managing Director, West Coast; Integral Group**

Recognized as a leader in sustainable and resource-efficient building design, Peter has worked in the industry since the mid 1980's, during which time he has been responsible for many key innovations, including pioneering the use of chilled beams (induction diffusers), efficient outside air systems that eliminate reheat, radiant cooling systems, low pressure drop systems in U.S. laboratories, and the use of guaranteed performance contracts for HVAC systems based solely on measured system data. In addition to design, Peter's work focuses on making green engineering financially practical. [www.integralgroup.com](http://www.integralgroup.com)

Peter Rumsey [prumsey@integralgroup.com](mailto:prumsey@integralgroup.com)

**Peter Yost**  
**Director, Residential Services; BuildingGreen, Inc.**

Peter Yost has been building, researching, teaching, writing, and consulting on high performance homes for nearly 30 years. BuildingGreen, Inc. is one of the oldest and most widely recognized green building information companies in North America.

[www.buildinggreen.com](http://www.buildinggreen.com)

### **Modern Landscaping Inc.**

Modern Landscaping specializes in outdoor living environments, seamlessly melding myriad materials, setting the tone for a garden's transformation. We are proud to bring your vision to life. <http://www.modlinc.com>

Mike Hertzler, CEO and President; [MHertzler@modlinc.com](mailto:MHertzler@modlinc.com)

### **Deven Gadula**

#### **Owner; First, Last & Always**

Deven Gadula established First, Last & Always in 1990. The company specializes in the highest end hardwood flooring installation and finishing. We follow our clients all over the country and work in high moisture content areas, as well as dry climates. This constant challenge of new environments keeps on increasing our level of expertise. We are experts in antique floor reproductions as well as in contemporary European ways of finishing wood. About 25% of our current floor finishing is being done in hardwax oils. Tah.Mah.Lah project has given us more insight into the energy efficiency of floors than any other previous engagement.

Andrew Brownstone [andrew@biosphere4consulting.com](mailto:andrew@biosphere4consulting.com)

### Nancy Clanton, PE, FIES, IALD, LC, LEED AP

**Founder, Clanton & Associates**

Nancy Clanton founded Clanton & Associates, a lighting design firm specializing in sustainable design in 1981. Her firm has had 11 of their projects named to the AIA Earth Day Top Ten List and obtained 13 Platinum, 7 Gold, and 9 Silver LEED Certifications. Nancy is a member of the National Academy of Science committee for the "Assessment of Solid State Lighting" and received the IESNA Presidential Award in 1990 and 2006. [www.clantonassociates.com](http://www.clantonassociates.com)

Nancy Clanton [nancy@clantonassociates.com](mailto:nancy@clantonassociates.com)

### Todd Givler, PE, LEED AP<sup>BD+C</sup> Designer,

**Clanton & Associates**

Todd Givler holds a BS of Architectural Engineering and an MS in Civil Engineering. In addition to design, he has developed lighting guidelines that promote energy efficiency and security for military facilities. Todd also taught daylighting design as an adjunct faculty member at the University of Colorado at Denver and worked at the National Renewable Energy Laboratory.

[www.clantonassociates.com](http://www.clantonassociates.com)

Todd Givler [todd@clantonassociates.com](mailto:todd@clantonassociates.com)

### Robert Clarke

**Founder, Alpen**

Robert Clarke has worked for more than three decades at the forefront of worldwide

architectural glass and window technology. His expertise extends to the impact of very high performance glass on energy economics, daylighting, radiant comfort, energy modeling, UV blockage and condensation resistance. He initiated the on-site remanufacture of all 6,514 windows of the Empire State Building. Robert holds Princeton engineering and Stanford business degrees. **Jim Kohl**

**Director of Operations, cyberManor**

Jim Kohl joined cyberManor in 2003 and is the lead project manager on all of cyberManor's largest custom integration projects. He was the lead project manager on the Holland Yates Control4 integration project from 2008 to 2011. [www.cybermanor.com](http://www.cybermanor.com)

Jim Kohl [jkohl@cybermanor.com](mailto:jkohl@cybermanor.com)

**Chris Rosiak**  
**Senior Installer, cyberManor**

Chris Rosiak joined cyberManor in 2006 and leads the installation team for cyberManor. Chris was instrumental in the installation of the wiring and component infrastructure at the Holland Yates residence. The quality of his workmanship can be seen in the AV rack in the closet to the left of the front door entrance (and in the AV rack photo in the [Box.net](http://Box.net) website). [www.cybermanor.com](http://www.cybermanor.com)

Chris Rosiak [crosiak@cybermanor.com](mailto:crosiak@cybermanor.com)

**Tamara Nichols**  
**Office Manager, cyberManor**

Tamara joined cyberManor in 2006 and coordinated the activities of the cyberManor team. She was instrumental in scheduling the labor and material resources to complete the Holland Yates installation. [www.cybermanor.com](http://www.cybermanor.com)

**Rick Kalm**  
**Lighting Control and Programming Expert, cyberManor**

Rick has been programming lighting control and Control4 solutions for cyberManor since 2004. He is the lead programmer on the Holland Yates project and responsible for integrating the control of the home lighting, AV, security, and whole house audio systems on the Apple iPads distributed throughout the home. Rick has also developed an integrated energy dashboard for the Holland Yates project. [www.cybermanor.com](http://www.cybermanor.com)

Rick Kalm [rkalm@cybermanor.com](mailto:rkalm@cybermanor.com)

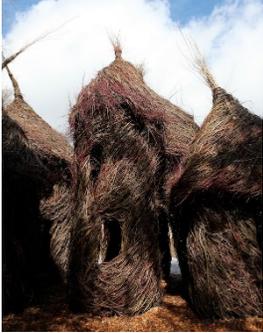

**Davis Energy Group**

Since 1981, Davis Energy Group has built a reputation as a leading innovator of cooling and heating technology for residential, commercial, and institutional applications. Clients turn to us for practical solutions to building comfort and energy efficiency challenges. Our work encompasses efficient cooling, heating, and building systems, including system analysis, simulations and technology transfer. We often serve as both a bridge and a filter for emerging technologies, moving between the ideals of theory and the realities of application. With an expansive array of public and private sector clients and experience covering multiple disciplines, we offer the resources to handle a wide variety of projects. [www.davisenergy.com](http://www.davisenergy.com)

Vern Crawford [crawford@davisenergy.com](mailto:crawford@davisenergy.com)

### Patrick Dougherty Willow sculptor

Combining his carpentry skills with his love of nature, Patrick Dougherty began to learn about primitive techniques of building and to experiment with tree saplings as construction material. Beginning about 1980 with small works, fashioned in his backyard, he quickly moved from single pieces on conventional pedestals to monumental site-specific installations that require sticks by the truckload. To date he has built over two hundred such massive sculptures all over the world. His home base is his handmade house of log in Chapel Hill, North Carolina, where he lives with his wife Linda and son Sam. [www.stickwork.net](http://www.stickwork.net)

Mark Heath [mark@shelterbeltbuilders.com](mailto:mark@shelterbeltbuilders.com)

**Lawrence B. Hebb**

**Senior Vice President; Northern California Region, Northern Trust**

Larry Hebb, MBA, leads Northern Trust's banking practice in Northern California. He has structured and approved over \$2 billion of residential and commercial mortgages, supporting the financing for some of the most environmentally progressive and architecturally significant homes and commercial structures in the western United States. [www.northerntrust.com](http://www.northerntrust.com)

Larry Hebb [lbh@ntrs.com](mailto:lbh@ntrs.com)

**Jason Grant**

**Founding Principal, Jason Grant Consulting**

My consultancy draws on 20+ years of experience as a leader in the movement toward a sustainable forest products industry. Past and current clients include companies, green building professionals, trade associations and non4profits that are part of the movement.

[www.jasongrantconsulting.com](http://www.jasongrantconsulting.com)

Jason Grant [jason@jasongrantconsulting.com](mailto:jason@jasongrantconsulting.com)

**John Hermannsson**  
**Architect, Hermannsson Architects**

John Hermannsson is an architect, a member of the American Institute of Architects and president of The Architectural Machine, in Redwood City, California. He has practiced architecture in both the United States and Scandinavia and holds Bachelors degrees in both Architecture and Mechanical Engineering from the Massachusetts Institute of Technology, and a Master of Architecture from the University of Oregon. He was the first Solar Energy Specialist for the Oregon State Extension Service, and has been in independent practice as an architect and building energy consultant in California for thirteen years.

John Hermannsson [jh@greenguide.com](mailto:jh@greenguide.com)

**I.S.C. Group, Inc.**

I.S.C. Group, Inc. has been in existence as an irrigation consultant firm since 1972. The personnel at I.S.C. Group, Inc. devotes a significant amount of time attending industry conferences and seminars to educate ourselves and become exposed to new ideas to reflect improved designs. Additionally, we continually are in contact with contractors, maintenance personnel and distributors as well as irrigation equipment manufacturers to keep abreast of equipment development, performance and reliability. I.S.C. Group, Inc.'s irrigation designs reflect a conservative standpoint, utilizing equipment and techniques that are proven to be reliable and effective in the long term. [www.isc4groupinc.com](http://www.isc4groupinc.com)

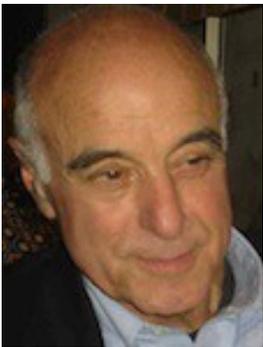

Ivy Munion [ivy@isc4groupinc.com](mailto:ivy@isc4groupinc.com)

**John Lewis**  
**Founder, John Lewis Glass**

As a graduate student in architecture at Berkeley, Lewis was introduced to blown glass by Marvin Lipofsky. Lewis founded the first private hot glass studio in California and later received his MA in design in 1970. His early work in blown glass led to an interest in glass casting. With the help of an NEA grant, he built an experimental facility to explore the possibilities of cast glass. At his state-of-the-art casting studio in Oakland, CA, Lewis designs and produces cast glass sculpture, tables, vessels and site specific architectural projects. [www.johnlewisglass.com](http://www.johnlewisglass.com)

Lynn Zboyovsky [lynnz@johnlewisglass.com](mailto:lynnz@johnlewisglass.com)

**Hal Levin Building**  
**Ecologist**

Hal Levin is an internationally recognized expert on indoor air quality and sustainable design, with 35 years of experience, over 4,000 pages of published writing, a client list that includes governments, corporations and individuals on four continents, and formerly at UC Berkeley, Lawrence Berkeley Lab, and UC Santa Cruz.

### Andy Lynch

#### Reclaimed furniture

Andy Lynch is a New York City born cross4medium artist reinventing the line between eco4 design and fine art. He illustrates the inherent brilliance of reuse and sustainability by creating metaphors with the aesthetic beauty of raw and discarded materials. In his artistic process, he stresses design by laboring over simplicity and economy of resources.

<http://www.artwelderandy.com/>

### Jefferson Mack

#### Blacksmith, Jefferson Mack Metal

Jefferson Mack uses traditional blacksmithing techniques to produce beautiful, distinct pieces of functional art. Each piece is forged at temperatures in excess of 2000 degrees and hammered by hand.

For the Tah Mah Lah project rather than use modern recycled steel with indeterminate carbon footprint, we sourced iron that had been smelted and formed one time only in 1883 for the structural support of an historic grain elevator in Superior, Wisconsin. Wherever we could, we left the original shape and finish of the metal: 130 years of patina and wear from millions of tons of grain passing through the bins. [www.mackmetal.com](http://www.mackmetal.com)

Jefferson Mack [Jefferson@mackmetal.com](mailto:Jefferson@mackmetal.com)

### Steve Marra

Steve Marra, is a recognized videographer who has created videos for rock bands to presidential candidates to sports events. He is particularly attracted to projects that focus on green home design and construction.

Steve Marra [srmarra@sbcglobal.net](mailto:srmarra@sbcglobal.net)

### Murray Engineers, Inc.

Murray Engineers, Inc. (MEI) is a comprehensive provider of geotechnical engineering, engineering geologic, geologic, laboratory and construction services. Based in Los Altos, our multi4disciplinary team has a proven record of providing superior professional services to a diverse range of public and private clients in the Bay Area. [www.murrayengineers.com](http://www.murrayengineers.com)

Andrew Murray [andrew@murrayengineers.com](mailto:andrew@murrayengineers.com)

Mark F. Baumann [mark@murrayengineers.com](mailto:mark@murrayengineers.com)

### Natural Systems International

For the past twenty years, Natural Systems International (NSI) has focused our firm development around water. The firm was founded with the mission of applying holistic ecological solutions to the problems that arise from the human uses of water. NSI works with integrated design teams to provide progressive options for water master planning, wastewater treatment and reuse, stormwater management, potable and non-potable water supply, and watershed restoration. [www.natsys4inc.com](http://www.natsys4inc.com)

Bill Weber [billw@goagi.com](mailto:billw@goagi.com)

**Julie Wellik**  
**Marketing Communications**

Based in the San Francisco Bay Area, Julie's consultancy offers strategic counsel, public and media relations, advertising, marketing communications, brand strategy development, project management and writing services.

Julie Wellik [jwellik@pacbell.net](mailto:jwellik@pacbell.net)

**Michael P. Young**  
**Founder, Urban Tree Management**

Michael P. Young is a California Native. His understanding of the California environment is both academic and innate. He founded Urban Tree Management in 1995, three years after graduating with honors with a Bachelor of Science and concentration in Environmental Policy, Law and Ecology from U.C. Berkeley. He is a certified arborist and a state licensed contractor with more than 26 years experience managing the San Francisco Bay Area's unique landscapes. Mr. Young is a leading expert in Bay Area tree management and has advised the public on tree evaluation and tree failure during storms. He is frequently consulted by the media and as an expert in court trials. He currently serves on the Horticulture Advisory Board of the Horticulture Department of Foothill College in Los Altos. He has been teaching for more than 14 years on topics that include preserving native oaks, landscape design, pruning, horticultural practices, and small business management. Mr. Young is a lead volunteer for CANOPY Trees of Palo Alto.

## SilverSpring Networks

Silver Spring Networks delivers technology to empower the modernization of the power grid. We deliver the networking platform, software and services that create smarter energy networks that perform brilliantly at scale, reliably, securely and efficiently. The energy network connects homes and businesses with their energy provider, the local utility, and enables us all to better manage energy and integrate renewable sources of energy. It provides a real-time view of the grid, enabling utilities to increase reliability and security and empowering consumers to see and manage their energy use. [www.silverspringnet.com](http://www.silverspringnet.com)

With over 20,000 customers, Sunrun is the nation's leading home solar company. Sunrun owns the solar panels at Tah.Mah.Lah and we simply purchase the electricity they produce each month. Sunrun also monitors and maintains the solar system to make sure it's working properly. [www.sunrunhome.com](http://www.sunrunhome.com)
